

For our management in Hamburg, we are immediately looking for a dedicated full time **IT Support**.

Your area of responsibility:

- 1st level support, maintenance, conversion, setup and installation of workstations and infrastructure (Linux, Mac, Windows).
- Inventory, archiving and documentation. Continuous adaptation of infrastructure and workflows to current technical developments.
- DIT on set (data handling and conversion during shooting), support and operation of streaming solutions.

What we expect from you:

- A big plus but not a must - an education/studies in the field of media technology (focus on IT), media informatics or specialized informatics with a background in media technology.
- Experience in a post-production or relevant experience in the field of video technology is desirable.
- Ability to work under pressure and in a team, as well as skill in manual tasks (installation media technology).
- Good English skills as well as a driver's license would also be an advantage.

Contact:

If the whole package appeals to you, then please apply with your complete and meaningful application documents, stating your salary expectations and the earliest possible starting date, by e-mail to careers@themarmalade.com.

We look forward to hearing from you!
